Aiming to Create "A New Comprehensive Lifestyle Industry "

On September 1, 2005, Seven & i Holdings Co., Ltd. was established as the holding company through a stock transfer by Seven-Eleven Japan Co., Ltd., Ito-Yokado Co., Ltd., and Denny's Japan Co., Ltd. The Company oversees about 100 operating companies, principally retail businesses, and has seven core operational areas closely linked to consumer lifestyles: convenience stores, superstores, supermarkets, department stores, food services, financial services and IT/Services. We are working to meet the diverse needs of each individual customer and to create "a new, comprehensive lifestyle industry" that provides new value to meet emerging needs. In the years ahead, we will continue to take on the challenge of promoting innovation in retailing.

Group Corporate Creed

- We aim to be a sincere company that our customers trust.
- We aim to be a sincere company that business partners, our shareholders and local communities trust.
- We aim to be a sincere company that our employees trust.

Store-Opening Policy

Group Store-Opening Strategy

The Company develops stores in several formats and therefore opens stores of various sizes. Each format is clearly defined in terms of its motivations for store visits and has a different catchment areas. Accordingly, Seven & i Holdings can achieve a higher density level in its store-opening strategy across the different format of stores.

Market Concentration Strategy

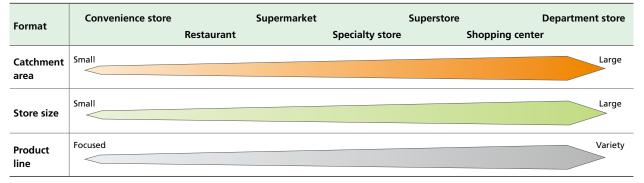

Our fundamental strategy is market concentration, whereby a high concentration of stores is positioned within one region.

Effects of area market concentration strategy

- · Greater familiarity with customers
- · Effective sales promotions

- · Efficient construction of production bases
- · Efficient construction of distribution structure
- · Improved efficiency in guiding franchised stores
- · Preventing entry by competitors

Group Merchandising Initiatives

Seven & i Holdings launched *Seven Premium* products in May 2007. These private-brand products have been developed through the integration of Group companies' infrastructure and expertise. In FY2011, it expanded the brand to cover total of 1,300 SKUs, including foods and household goods; Group-wide sales of private brand products reached ¥380.0 billion. In order to improve the quality of our products and to make them differenciate themselves, it launched a new branding strategy in March 2011 to renew its products lineups, logos, and packaging.

New Branding Concept

- Develop sophisticated products with maximized taste and quality
- Use a new brand logo for products that are of extremely high quality yet are reasonably priced

Original Daily Food Products Development by Seven-Eleven Japan

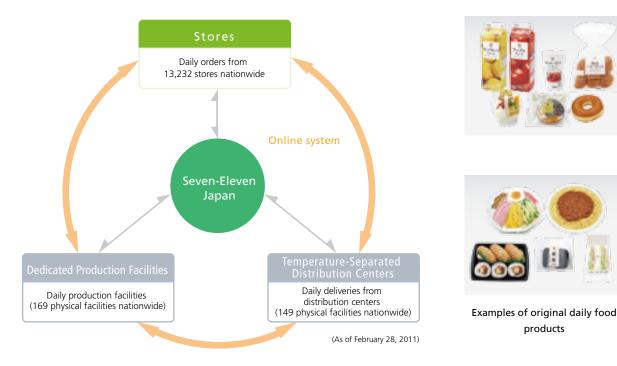

Notes 1. Nihon Delica Foods Association (NDF) was formed in 1979 mainly by vendors of rice-based products. NDF currently has approximately 80 member companies that engage in the vendor businesses of rice-based products, sandwiches, delicatessen items, noodles, and Japanese pickles. Members jointly develop products, manage quality, procure ingredients, and implement environmental measures.

2. Figures for the development system, number of dedicated production facilities, combined distribution centers, and processing centers are as of February 28, 2011.

Supply System for Original Daily Food Products

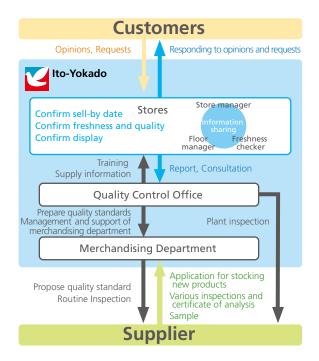

Original daily food products are made in specialized facilities operated by independent collaborating companies and are delivered to 7-Eleven stores from combined distribution centers that have multiple temperature-specific zones. The production facilities and temperature-separated combined distribution centers serve only Seven-Eleven Japan, allowing us to distinguish ourselves from the competition in terms of product development, hygiene, and quality control.

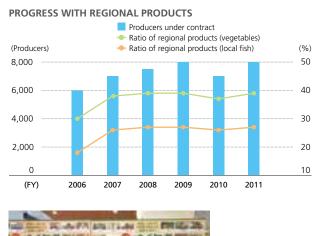

Food Safety Initiatives for Ito-Yokado

Quality Control System

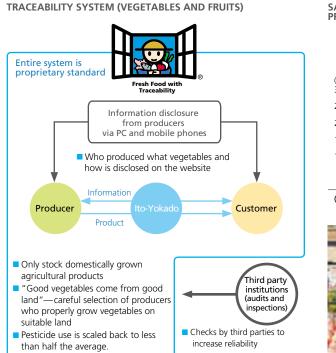

Ito-Yokado rigorously inspects product ingredients and freshness at every stage from procurement to sales. If a defective product is detected after sales, Ito-Yokado responds immediately and takes steps to prevent its spread. To deliver the freshest products, Ito-Yokado contracts with local farmers and attempts to expand its selection of regional products.

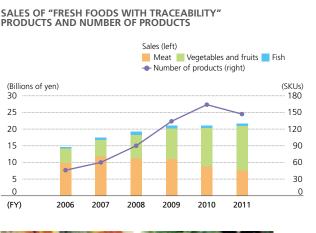

"Fresh Foods with Traceability" Initiatives

In order to respond to demand for more reliable food products, Ito-Yokado emphasizes the importance of giving customers a clear understanding about the place of production, production methods and distribution channels (traceability). This example is from the "Fresh foods with traceability" product series, a product brand designed by Ito-Yokado. Ito-Yokado works to provide safety food to customers through the standardization of production methods and quality standards, increasing reliability through the introduction of inspections by third parties and solidifying its relationship with stakeholders by enhancing open disclosure.

Distribution Systems

Combined Delivery System

Group companies adopt a combined distribution system for greater efficiency. The combined distribution system is a rationalized system that allows products from different suppliers and manufacturers to be delivered to stores on the same truck. The combined distribution centers are operated by third parties.

System Integration

In order to realize group synergies and upgrade administrative functions, Seven & i Holdings promotes integration between hardware and networks, which form the basis of its systems. In addition, sales administration systems are integrated by business categories.

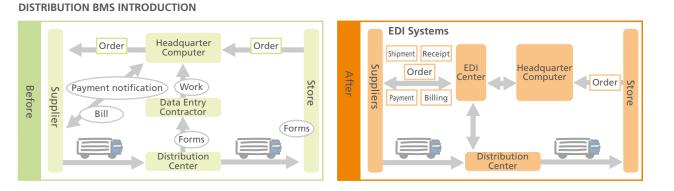

Introduction of Distribution Business Message Standard

In April 2011, Ito-Yokado introduced a distribution business message standard (BMS)—promoted by the Ministry of Economy, Trade and Industry—in its electronic data interchange (EDI) systems. The EDI systems are used in transactions with suppliers, for example, in ordering, shipping, reception, billing and payment. We plan to introduce the distribution BMS in the systems used by York-Benimaru, York Mart and other Group stores.

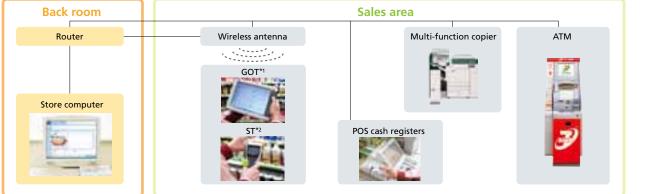

Benefits of Distribution BMS

- · Improve accuracy and productivity in ordering, order reception and payment operations.
- · Reduce operating costs associated with paper-based forms.

Sixth-Generation Total Information System for Seven-Eleven Japan

By introducing wireless in-store networks, the Sixth-Generation Total Information System can improve productivity and enhance "Store System" functions that support item-by-item management. In addition, POS cash registers equipped with a read / write ability that enables the use of electronic money systems are installed.

Group Card Business

Group companies have issued over 30 million cards at present, and we are accelerating a card strategy that facilitates members to utilize the Group company's stores. . On April 1, 2011, Seven CS Card Service Co., Ltd., which handles Sogo & Seibu's credit card business, became a consolidated subsidiary of Seven & i Holdings. By strengthening collaboration between Seven CS Card Service and Seven Card Service, efforts are being made to establish and promote a new Groupwide card service strategy. These efforts include such initiatives as the integration of the two card service companies' businesses and the standardization of their point services. (As of April 30, 2011)

Seven & i Point Service

Previously, each type of card issued by Group companies was only valid for point services at specified stores of certain Group companies. From June 2011, however, Seven & i Holdings started a preferential point service, through which cardholders using credit functions can receive points at Group stores. This initiative is aimed at encouraging members to utilize the other company's stores. In September 2011, we plan to launch the *nanaco* Point Club service. Through this new service, points granted by Group companies can be converted into *nanaco*, electronic money and can be used at stores operated by Group companies.

Seven & i Holdings is promoting its IT / Services that integrates the Internet and actual stores. We are taking advantage of the Group's strengths—namely, its business network consisting of approximately 14,700 stores and its business infrastructure based on advanced information and distribution systems.

Business Structure

Seven & i Holdings has split the Internet-related operations undertaken by each Group company into three categories: Internet Shopping Business; Store-Based Internet Service Business; and Information Terminal Service Business. Seven & i Net Media, which controls the Group's IT / Services, leads the development and reorganization of business infrastructure required for these operations.

Store Formats

General merchandise store (GMS) stand-alone stores

Following basic stand-alone store format of Ito-Yokado, stores are operated mainly in highly populated areas. Directly managed sales floor space accounts for 70-80% of its total sales floor space, and it has wide lineup of apparel, household goods, and foods.

Under 1 year

Urban-style small supermarket

3.5

Operating in highly populated areas with limited catchment in urban area, this type of store specializes in fresh and processed foods, household goods that customers frequently purchase. Ito-Yokado *Shokuhinkan* Asagaya opened as the first and only store as of February 2011.

Mall-type shopping centers

Anchored by Ito-Yokado and host to another 100 to 200 tenants, mall-type shopping centers are located in metropolitan areas and operated under the concept of providing a wide-range of catchment areas. Opened in April 2005, Ario Soga was our first mall-type shopping center and the network has expanded to 10 stores as of February 28, 2011.

Discount stores

Under the name of THE PRICE, we operate a discount store chain offering reasonably priced items centered on food, apparel, and daily commodities. The network has expanded to 11 stores as of the end of February 2011.

Notes: 1. Millennium Retailing, Sogo, and The Seibu Department Stores were merged in August 2009, and Sogo, as a surviving company, changed its name to Sogo & Seibu Co., Ltd. Furthermore, Robinson Department Stores (two stores) was merged into Sogo & Seibu in September 2009.
 The financial and operating figures for FY2010 have been calculated as if the former three companies had merged at the beginning of the term. Prior year figures are also calculated in the same manner.

*1 Capital expenditures for FY2007 includes cost of repurchasing securitized real estate used for stores (approximately 49 billion yen)

*2 Sales per square meter = Net sales ÷ Weighted average floor space *3 Part-time employees are counted adjusting their working hours to an 8-hour working day.

Store Operation Structure

Sogo & Seibu is promoting structural reforms for its department store operations by dividing stores into three categories according to their characteristics: "key stores," "regional leader stores" or "suburban stores."

Key stores: Promoting structural reforms toward the establishment of a "new department store"

Introducing to other key stores the expertise nurtured by Seibu Ikebukuro, which reopened after full-scale remodeling in September 2010, Sogo & Seibu is working to further bolster its sales capabilities.

Notes: 1. Denny's Japan, Famil, and York Bussan were merged into Seven & i Food Systems in September 2007. The figures for FY2008 are calculated by adjusting the net sales of three companies in the interim period.

2. Net sales for FY2006 and FY2007 are calculated by simply adding the net sales of the three companies.

3. Due to integration of the systems of the former three companies, the method of counting stores located within Ito-Yokado stores has been changed. As a result, the number of stores in restaurant division and fast food division has decreased three and one respectively for FY2006 to FY2008.

Store Formats

Seven & i Food Systems develops overall food-related businesses comprising of the Restaurant division, Meal provision service division and Fast food division.

Restaurant division

Denny's Japan

Meal provision service division

44

Gooburg

Operates family restaurants as "Dennys", which accounts for approximately 80% of all the restaurants. Providing a comprehensive menu, including mainstay hamburger steaks, steaks, pastas and seasonal delicacies, as well as friendly service, they operate 24 hours a day, seven days a week.

The Gooburg restaurant chain specializes in hamburger steaks made from 100% beef. Sales floor space is 70 to 80 square meters, and approximately one third of Denny's floor space.

Famil family restaurants serve Japanese, Western and Chinese foods inside the Group's stores.

Operated primarily within the Tokyo metropolitan area, this self-serve res-

taurant format offers authentic soba

(buckwheat) and udon noodles at rea-

sonable prices. Sales floor space is 50 to 70 square meters, and approximate-

ly one fifth of Denny's floor space.

Famil

Soba & Udon Shichi-Fuku

Fast food division

Operates fast food shop as "Poppo" inside the Group stores, and smallsized demonstration-type fast food shops inside and outside the Group.

Operates meal provision services that provide meals at inside and outside the Group companies and students cafeterias, and offers catering delivery services and medical food services.
