Notes: 1. Millennium Retailing, Sogo, and The Seibu Department Stores were merged in August 2009, and Sogo, as a surviving company, changed its name to Sogo & Seibu Co., Ltd. Furthermore, Robinson Department Stores (two stores) was merged into Sogo & Seibu in September 2009.

2. The financial and operating figures for FY2010 have been calculated as if the former three companies had merged at the beginning of the term.

^{*3} Part-time employees are counted adjusting their working hours to an 8-hour working day.

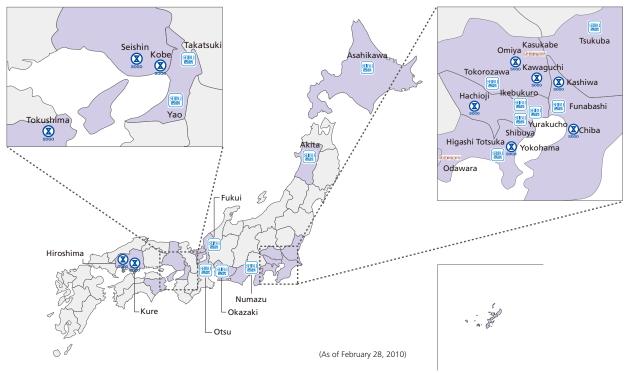

Prior year figures are also calculated in the same manner.

*1 Capital expenditures for FY2007 includes cost of repurchasing securitized real estate used for stores (approximately 49 billion yen)

*2 Sales per square meter = Net sales ÷ Weighted average floor space

Store Expansion

Store Operation Structure

With the aim of stepping out of the existing business operation style, Sogo & Seibu is promoting drastic structural reform. As part of such efforts, Sogo & Seibu classified its stores into the two categories of "key stores," which make large contributions to the entire business of the company, and "suburban stores," which will require changes in earnings structure. Based on this classification, we are implementing strategies base on the characteristics of each store.

Key stores: Making strategic investment to establish a "new department store"

For key stores including Seibu Ikebukuro that can expect improved earnings and which have growth power, we will promote further reinforcement of marketing capabilities through aggressive renovations of stores and merchandising.

Key stores: Seibu Ikebukuro, Sogo Yokohama, Sogo Chiba, Sogo Kobe, Sogo Hiroshima

Seibu Ikebukuro

Sogo Yokohama

Sogo Kobe

Suburban stores: Converting business format to multi-purpose commercial facilities to break away from the traditional department store framework

In order to meet diversifying customer needs and establish an efficient store operating structure, we are promoting a shift to a shopping center management structure by leveraging profitable specialty stores as tenant both within and outside of the Group (commenced from FY2010 in a phased manner).

Notes: 1. Denny's Japan, Famil, and York Bussan were merged into Seven & i Food Systems in September 2007. The figures for FY2008 are calculated by adjusting the net sales of three companies in the interim period.

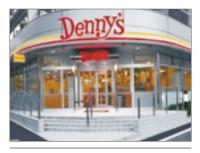

Reorganization of the Food Service Segment

On September 1, 2007, Seven & i Food Systems merged the three companies Denny's Japan Co., Ltd., Famil Co., Ltd., and York Bussan K.K. By integrating the three companies to form the Restaurant, Meal provision service and Fast food divisions, we will aim to enhance the profitability of the Group's restaurant operations.

Seven & i Food Systems Co., Ltd. Restaurant division Meal provision service division

Fast food division

Restaurant division

Operates family restaurants as "Denny's" outside the Group stores, and as "Famil" inside the Group stores.

Meal provision service division

Operates contract food services that provide meals at inside and outside the Group companies and students cafeterias, and offers catering delivery services and medical food services.

Fast food division

Operates fast food shop as "Poppo" inside the Group stores, and small-sized demonstration-type fast food shops inside and outside the Group.

^{2.} Net sales for FY2006 and FY2007 are calculated by simply adding the net sales of the three companies.

3. Due to integration of the systems of the former three companies, the method of counting stores located within Ito-Yokado stores has been changed. As a result, the number of stores in restaurant division and fast food division has decreased three and one respectively for FY2006 to FY2008.
