- CO₂ emissions from energy use through the operations of the head office, Ito Training Center and Kuki Center of Seven & i Holdings Co., Ltd. for the period of April 1, 2021 through March 31, 2022

2) Scope 3 Category 1 emissions:

- GHG emissions from following goods and services purchased by Seven-Eleven Japan Co., Ltd.:

Purchased goods and services	Reporting period covered
Goods sold at stores and Uniforms for store staff	March 1, 2021 through February 28, 2022
Packaging materials used at stores	April 1, 2021 through March 31, 2022

2. Methodology

Bureau Veritas conducted the verification in accordance with the requirements of the international standard 'ISO14064-3 (2019): Greenhouse gases - Part 3: Specification with guidance for the verification and validation of greenhouse gas statements'.

As part of Bureau Veritas' assurance, the following activities were undertaken:

- Interviews with relevant personnel of Seven & i responsible for the identification and calculation of GHG emissions;
- Review of Seven & i's information systems and methodology for collection, aggregation, analysis and review of information used to determine GHG emissions; and
- Audit of a sample of source data to check accuracy of quantified GHG emissions.

3. Conclusion

Based on the verification work and processes followed, there is no evidence to suggest that the GHG emissions assertions shown below:

- are not materially correct and are not a fair representation of the GHG emissions from activities within the scope of work
- are not prepared in accordance with the methodology for calculating GHG emissions established and implemented by Seven & i.
