2. Methodology

Bureau Veritas conducted the verification in accordance with the requirements of the international standard 'ISO14064-3 (2019): Greenhouse gases - Part 3: Specification with guidance for the verification and validation of greenhouse gas statements'.

As part of Bureau Veritas' assurance, the following activities were undertaken:

- Interviews with relevant personnel of Seven & i Holdings Co., Ltd. and the companies listed in "1. Scope of Verification" responsible for the identification and calculation of GHG emissions;
- Review of Seven & i Holdings Co., Ltd.'s and the companies' listed in "1. Scope of Verification" information systems and methodology for collection, aggregation, analysis and review of information used to determine GHG emissions; and
- Audit of a sample of source data to check accuracy of quantified GHG emissions.

3. Conclusion

Based on the verification work and processes followed, there is no evidence to suggest that the GHG emissions assertions shown below:

- are not materially correct and are not a fair representation of the GHG emissions from activities within the scope of work
- are not prepared in accordance with the methodology for calculating GHG emissions established and implemented by Seven & i Holdings Co., Ltd.
